TECHNICAL SKILLS

- **Programming Languages:** Python, Java (Basics)
- **Web Development:** Django, HTML, CSS, JavaScript, Bootstrap
- **Databases:** PostgreSQL, MySQL
- **Tools:** Git/Github, API Integration

SOFT SKILLS

- Effective listener and communicator
- Strategic thinker and motivator
- Creative problem-solver with excellent planning skills

EDUCATION

- **B.Tech :** CSM(AI&ML)
  TKR College of Engineering and Technology
  Expected : 2025

- **Diploma :** EEE
  TRR College of Technology(Polytechnic)
  Completed : 2022

- **Schooling**
  Sri Siddhartha High School
  Completed : 2018

HOBBIES

- Playing chess
- Watching anime and Hollywood movies
- Coding practice

STRENGTHS

- Positivity and interaction
- Visualization and imagination
- Motivating others and generating innovative ideas

ABOUT ME

Aspiring Python Web Developer with a strong foundation in **Django framework** and a passion for creating efficient **web applications**. Currently pursuing a B.Tech in CSM (AI & ML) with **hands-on experience** in developing various projects using Python and JavaScript technologies. Demonstrated ability in implementing CRUD applications, To-Do lists, and social media platforms, with plans to tackle more complex projects in the future. Eager to **leverage coding skills** and **creativity** to contribute to **innovative web solutions**.

EXPERIENCE

Trainee

ICT program conducted in collaboration with **Capgemini**   2024

- **ICT Program Participant** - Python Web Development [TKR College of Engineering and Technology], [Meerpet] [10, 2024] - [11, 2024]
- Engaged in a hands-on program focusing on Python web development with an emphasis on **Django**, **Flask frameworks** and **Tkinter**.
- Developed expertise in building **web applications** with functionalities that enhance user experience.
- Completed small projects to solidify understanding and mastery of Django by implementing user registration, login, and CRUD operations.

PROJECTS

- **CRUD Operations App** Built a Django web app for Create, Read, Update, and Delete functionalities using PostgreSQL and GitHub.
- **To-Do List App** Designed a Django-based app with user registration, authentication, and structured task management.
- **Social Media-like App** Developed a platform with features like user posts, likes, comments, and follow/unfollow options.
- **Hospital Info System** Created a static website for accessible hospital information as a mini-project.
- **House Price Prediction** Major project using machine learning to estimate house prices based on key parameters.
- **Future Projects** Planning to develop WhatsApp- and Netflix-like apps using Django for real-time communication and streaming.

CERTIFICATIONS AND TRAINING

- Certification in **Python Web Development, ICT Program [Cap Gemini], [2024]**
- I am certified in Python from Great Learning

DECLARATION

- I hereby declare that the above information is true and correct to the best of my knowledge.
